Aroma - 1%

Is flavored cast sheet a good idea?

Stain 100

Glass 100

Hair 100

Leaving

10 Castons - will give 20 Castons

Per Evon: All 4 tests on Eclipse proto of flavored cast sheet -
→ Line wants it done

- 1% flavor cast sheet - was in CLT test - product C

→ Change to 2005 budget - Line

* No open light to do further development on Eclipse.

Line wants to know if continue development,
would flavored cast sheet stop development

Line does not want to do informal work.

Flavor addition doesn't affect cosmetic claims -
true or false?

* Will not adopt¹⁹⁰ but can we use flavoring
in future development?

Funded this year or next year - no hurry in getting it
done.

Anticipate future development →
